

ABHINAV HEMENDRA KAUSHIK

Senior Quality Analyst | Manual & Functional Testing Specialist | AI-Augmented QA

mail.abhinavkaushik@gmail.com | +91 9167065084 | Noida, UP, India

PROFESSIONAL SUMMARY

Results-driven Senior QA professional with 13+ years of experience delivering high-quality software across healthcare, legal, banking, and GIS domains. Proven expertise in manual and functional testing, API validation, and database testing — now integrating AI-powered tools and automation frameworks to accelerate test coverage and defect detection. Adept at driving quality in Agile/Scrum environments with strong stakeholder collaboration.

AI & EMERGING TECHNOLOGY SKILLS

AI/ML Testing	Functional & regression testing of AI/ML pipelines, LLM output validation, prompt testing
RPA & Automation	UiPath Test Suite, RPA testing with Studio Pro, automation bot development
IDP & OCR QA	Testing Intelligent Document Processing (IDP) and OCR engines for healthcare RCM
Test Automation	Selenium WebDriver, Squish, Autolt, Selenium IDE — script validation & manual-to-auto migration
AI Tools in QA	Leveraging AI-assisted test case generation, anomaly detection, and smart defect analysis

CORE TECHNICAL SKILLS

Testing Types	Functional, UI, Regression, Integration, System, API, Database, End-to-End Testing
API Testing	Postman, Swagger — REST API validation, schema & payload testing
Bug Tracking	JIRA, Azure DevOps, BugHerd, Mantis, Asana, Marker.io
Database	MS SQL, Oracle SQL, PostgreSQL — data integrity & backend validation
Platforms	Windows, macOS, Android, iOS
Methodology	Agile-Scrum — Sprint planning, stand-ups, retrospectives, reviews
Collaboration	Git, MS Office, Azure DevOps Boards

PROFESSIONAL EXPERIENCE

Senior Quality Analyst | Provana

Apr 2021 – Present | Noida, UP

- Led manual functional and regression testing for web and mobile applications across legal and healthcare domains.
- Performed API testing using Postman and Swagger, validating REST endpoints for correctness, performance, and security.
- Drove IDP/OCR testing initiatives including PII redaction validation, improving compliance and data handling accuracy.
- Collaborated in Agile ceremonies (sprint planning, stand-ups, reviews) and authored detailed test plans and reports.

- ▶ Executed database testing on MS SQL and PostgreSQL to validate data integrity across complex workflows.
- ▶ Tracked, triaged, and managed defects end-to-end using Azure DevOps and JIRA.

Key Projects:

- ▶ **TABAK Automation:** Streamlined high-volume legal case management including bulk litigation, claims processing, and legal intake workflows.
- ▶ **Gurstel Mailroom Automation:** Tested end-to-end document intake, classification, and distribution for Gurstel Law Firm, reducing manual effort and errors.
- ▶ **IDP OCR – Healthcare RCM:** Led QA for AI-driven PII redaction automation, ensuring compliance and processing efficiency.
- ▶ **iHealth – Healthcare RCM:** Developed and executed test scenarios to enhance claims processing efficiency across healthcare revenue cycles.
- ▶ **Heavner Foreclosure:** Conducted end-to-end functional testing for accurate billing and foreclosure processing.
- ▶ **Account Matters – Therabill:** Validated healthcare data and automated report testing for billing accuracy.
- ▶ **BPA Work Management Tool:** Managed testing across User Management, Role Management, Process Management, and File Inbox modules.
- ▶ **Zoom Info Process:** Tested an automation bot that optimized lead generation, reducing credit usage and improving efficiency.
- ▶ **ICconnect247:** Validated debt repayment process flows, reducing operational costs and enhancing customer experience.

Test Analyst / Software Test Engineer | Trigyn Technologies Ltd

Apr 2013 – Feb 2021 | Mumbai, Maharashtra

- ▶ Designed and executed manual test cases for banking, e-commerce, and GIS mapping applications.
- ▶ Conducted UI, functional, and regression testing; provided detailed defect reports via JIRA.
- ▶ Collaborated with developers and business analysts to resolve issues and improve software quality.

Key Projects:

- ▶ **John Deere – Lead Management System:** Created comprehensive manual test cases covering customer inquiries, lead tracking, and CRM workflows.
- ▶ **TOMTOM QA-Rules (GIS):** Validated mapping data accuracy and executed functional tests on geospatial rule sets.
- ▶ **Citibank – Fundro Maintenance:** Conducted manual functional testing for critical banking application maintenance releases.

CERTIFICATIONS & TRAINING

- ▶ UiPath Certified – Application Testing with UiPath, Diploma of Completion: UiPath Test Suite, RPA Testing with Studio Pro (v2020.10)
- ▶ Provana Certified – Agile Methodologies, Functional Testing, Manual Testing
- ▶ NIIT Certified – Core Java & Advanced Java

EDUCATION

Master of Computer Applications (MCA) – Maharishi Dayanand University, Rohtak	2006
Bachelor of Computer Applications (BCA) – Maharishi Dayanand University, Rohtak	2003
